

An Expert Talk on GATE Preparation and Future Prospects with SWOT Analysis- Chemical Engineering on 20th June 2021.

Rajiv Gandhi University of Knowledge Technologies actively uses Information & Communication Technology (ICT) and strives towards becoming a world class institution with a vision of transforming meritorious rural youth into professionals, equipped with high level of technical knowledge, skills, social and environmental awareness; ethics through its unique 6-year integrated course designed for the elite students that were selected on the merit-basis of 10th board.

Department of Chemical engineering conducted this webinar, headed by Mr. P Haribabu, HOD and convened by Mr. Srikanth Kutla. Motive of this event was to bring awareness about GATE examination and readiness approach for students. GATE (Graduate Aptitude Test in Engineering) is most important for engineering students to get admission into higher education provided by prestigious institutions like IIT's and NIT's and also for getting placed in PSU's.

Prof. V. Ananth kumar, Executive director at “We inspire ask Pvt. Ltd.” He was invited for this event as a guest speaker. The speaker, having around 20 years of teaching experience and expert in gate coaching as well.

He explained the Gate preparation tips and gave his insights into the competition for the exam. Later he focused his talk more on mass transfer operations principles and gate practice questions. How one can work on the concepts and solving problems within 2 mins was the idea behind the course delivery.

Over hundred students registered for the event and it went on smoothly with few cross section from the students regarding GATE Preparedness.

Prof. Ananth also focused on the SWAT Analysis provided by their firm which focuses on the overall understanding of an individual and would help to make a decision about their future prospects.

At the end of the session, Mr. P Hari babu, Head of the department gave the vote of thanks.

Poster of the event and live session clippings are attached below for reference.
